MEMORANDUM OF UNDERSTANDING
Between the Cuyahoga Soil and Water Conservation District
and the
City of Newburgh Heights

This Memorandum of Understanding ("MOU") is made this 19 day of JANUARY, 2022 ("Effective Date"), between the Cuyahoga Soil and Water Conservation District (SWCD) and City of Newburgh Heights ("City"), for assistance with technical assistance in implementing soil and water conservation measures.

Purpose – Implementation of a conservation program that promotes best practices for pollution prevention and corresponds with the City's Municipal Separate Storm Sewer System (MS4) permit.

Recognizing the need for effective collaboration in protecting soil and water resources and in carrying out its mandated responsibilities, especially related to the National Pollutant Discharge Elimination System (NPDES) Storm Water Permit, the City and the Cuyahoga SWCD accept this agreement as the document which describes the process for exchange. Cooperation between these two units of government facilitates solutions to problems encountered by the City as it plans for the development/redevelopment and conservation of its environment, as well as water quality improvements. The Ohio Revised Code, Chapter 940, describes the Cuyahoga SWCD's authority for engaging in this Mutual Agreement.

NOW, THEREFORE, the parties' understanding is as follows:

Project Tasks

The Cuyahoga SWCD and the City have mutually agreed to the scope of technical assistance related to pollution prevention on disturbed sites, including construction sites disturbing one or more acres of total land, including the entire area disturbed in the larger common plan of development or sale (≥ 1 acre) as required under the NPDES rules. Construction activities disturbing less than one acre and not part of a larger common plan of development or sale of total land (< 1 acre), and not covered under the NPDES rules, will be reviewed by the Cuyahoga SWCD as requested by the City.

The Cuyahoga SWCD will: (i) perform storm water pollution prevention plan (SWP3) reviews for proposed development, redevelopment and infrastructure renovation projects; (ii) perform abbreviated construction plan reviews, as requested by the City; (iii) perform field reviews of active construction projects; and (vii) provide written technical advisory reports detailing plan review recommendations, site conditions, and recommendations for compliance and/or maintenance activities needed, and provide fact sheets or training to further promote best practices.
